BPPRA/MIS/90/
BALOCHISTAN PUBLIC PROCUREMENT
REGULATORY AUTHORITY
GOVERNMENT OF BALOCHISTAN

Dated: Quetta the 1st September, 2025

VISITOR NOTIFICATION

No. BPPRA/MIS/90-3/ 1002 It has been observed that certain individuals are frequently visiting the office of BPPRA while claiming to represent Procuring Agencies and/or Vendors. During such visits, these individuals are found in possession of multiple user credentials belonging to different Procuring Agencies and Vendors.

This practice is a serious violation, as it facilitates unauthorized access, encourages manipulation of tenders, and undermines the principles of transparency and fairness in public procurement.

Henceforth, if any such individual is found visiting the BPPRA office with multiple user IDs or misusing the credentials of Procuring Agencies or Vendors, strict action will be taken against him. Furthermore:

1. For Procuring Agencies:

- The concerned custodian of the user credentials shall be held responsible.
- The matter shall be formally reported to the relevant Administrative Secretary of the concerned department for initiation of appropriate disciplinary proceedings under the applicable government rules.

2. For Vendors:

- The concerned firm/vendor shall be liable to proceedings under the Balochistan Public Procurement Rules (BPP Rules).
- Blacklisting proceedings may be initiated against the vendor as per the relevant provisions of the Rules.

3. For All Visitors:

- Every visitor shall be required to provide his original CNIC at the BPPRA Support Desk at the time of entry.
- The User ID being operated must correspond to the same CNIC holder.
- In cases where an individual is authorized to act on behalf of the actual User ID custodian, an authority letter/power of attorney issued on the official letterhead of the Procuring Agency or firm must be produced, along with CNIC copies of both the actual user custodian and the authorized visitor.

All Procuring Agencies and Vendors are therefore advised to safeguard their user credentials and ensure that only authorized and legitimate representatives are allowed to operate their accounts. Any negligence in this regard shall invite strict regulatory action.
