

This Fact Sheet summarizes key public procurement facts supported by data analysis for July–December 2025, and highlights initiatives and focus areas of improvement and priority actions to further strengthen transparency, efficiency, and accountability in Public Procurements.

Annual Statistical Overview of Tenders (July–December 2025)

Total Tenders  
9,513

Cancelled Tenders  
656

Tender Processed  
8,857 (Rs. 238.9 bill.)

Evaluation Published  
6,490 (Rs. 172.8 bill.)

| E-Bid Tenders |           |                       |                      |
|---------------|-----------|-----------------------|----------------------|
| Total Tenders | Cancelled | Processed             | Evaluation Published |
| 1,438         | 172       | 1266 (Rs.175.4 bill.) | 824 (Rs.123.2 bill.) |

| Manual Tenders |           |                       |                       |
|----------------|-----------|-----------------------|-----------------------|
| Total Tenders  | Cancelled | Processed             | Evaluation Published  |
| 8,075          | 484       | 7,591 (Rs.63.5 bill.) | 5,666 (Rs.49.6 bill.) |

BPPRA is Advancing Procurement Governance by Enforcing Rigorous Compliance, Promoting Transparency, and Strengthening Institutional Accountability Across the Public Sector.

Key Initiatives Taken Since July 2025 to Strengthen Procurement Governance

- A redesigned, faster, and more user-friendly BPPRA website was launched, supported by active official social media updates.
- Drafted over 100 amendments to BPP Rules, 2014.
- Initiated system integration with FBR, NADRA, BRA, AG, and SAP.
- BPPRA circulated first ever Urdu and English guidelines outlining common procurement rule violations to all procuring agencies.
- Simplified English and Urdu versions of BPPRA Rules introduced to enhance understanding and compliance.
- Expanded e-bidding thresholds to Rs. 30 million for works and proposed a full transition from manual to e-bidding.
- Institutionalized periodic tender data analysis.
- Activated the Procurement Review Committee (PRC) and Enforcement Wing.
- Procurement Review Committee disposed of all 80+ PRC cases.
- An online grievance redressal system was launched, enabling contractors to lodge grievances electronically.
- Enhanced e-PPS security architecture with WAF, Zero Trust Network, and related controls.
- Implemented digital cash management and cheque-less payment systems with NBP.

92%

BPP Rule compliance has reached an all time high of 92% across departments through strengthened oversight, enforcement mechanisms, and data driven monitoring.

Comparative Analysis

| Indicator                                 | Jul 24-Jun 25 | Jul-Dec 2025 | Remarks            |
|-------------------------------------------|---------------|--------------|--------------------|
| Single Bidder %                           | 36%           | 23%          | Improvement Seen   |
| Tender Cancellation %                     | 10.2          | 6.5%         | Improvement Seen   |
| Award Published %                         | 10%           | 10%          | No improvement yet |
| Average Bidder Participation Per Bid      | 3.2           | 5.5          | Improvement Seen   |
| BPPRA NIT and Bid Document Compliance (%) | 87%           | 92%          | Improvement Seen   |

Rule 27: Contents of the Bid Documents. Rule 34: Evaluation Criteria.  
Rule 37: Discriminatory and Difficult Conditions.

BPPRA Trained 103 Officials Including MCMC Trainees, Assistant Commissioners, and Section Officers

KEY AREAS FOR IMPROVEMENT

- Unnecessary requirements in eligibility and tailored evaluation criteria limiting competition.
- Non-uploading of contract awards on the Authority’s website by Procuring Agencies.
- Untrained Procurement Committee (PC) members causing procedural delays.
- Deliberate rejections of bidders in eligibility and technical criteria.
- Single-Bid participation observed in 23% of procurements, indicating limited competition and reduced value for money particularly in Manual bids.
- Inconsistent and unreliable cost estimates resulting in procurement delays, revisions, and reduced value for money.
- Deliberate avoidance of e-bidding.
- Manual handling of RFQs and petty purchases no with record on web portal.
- Technical disruptions in e-PPS operations.

FUTURE INITIATIVES

- Standardization of eligibility and evaluation criteria for similar nature of procurements.
- Implementation of e-bidding as the default procurement method for all tenders.
- Nomination of officials for Procurement Committees who are well aware and trained on BPP Rules.
- Gradual transition of RFQs and petty purchases to the e-PPS platform.
- Officials exhibiting repeated non-compliance with BPPRA Rules shall be subjected to debarment from engaging any procurement activities.
- Implementation Reverse Auction for Single item procurements.
- Centralized Procurement for Health and Education Sector.
- Moving to 2.0 ePPS for smooth functionality
